

**RESTAURATEURS MEET.****Annual Convention of Association May Be Held Here.**

Steps to have the annual convention of the National Restaurant Association held in Washington next October, were taken at a dinner Wednesday night of the local restaurant association. The Washington Chamber of Commerce, City Club, Board of Trade and the Merchants and Manufacturers' Association will be asked to aid in a campaign to have the convention held here.

Addresses were made by Edwin C.

Graham, president of the City Club; Edwin C. Brandenburg of the Board of Trade; Robert N. Harper of the Chamber of Commerce; M. A. Leese, Charles J. Columbus and J. O. Miller. Ben Rosenfeld, president of the Washington Restaurant Association, presided. Herman Gasch acted as host and toastmaster.

**Japan and the Next War.**

The eyes of the world seem to be directed toward Japan as the storm center from which the next war will come. Her aggressions in Manchuria and China, her overdrive into Australia,

Honolulu, Canada and the United States cause a ferment in all parts of the world. Doubtless Japan does not desire the antagonism that is arising. It may not be overweening ambition and lust of power, as some assert, but a very natural cause that is compelling her to her present course. Japan has an area of about half of Texas and a population of more than half of the whole United States. It is just as natural and as necessary for a nation in this situation to seek more land as it is for bees to swarm when the hive is too full.

History shows that many of the greatest wars have been caused by population becoming too dense; migration occurs, sword in hand, and brings disaster to the human family and more than once has threatened civilization. Shall we learn from the lessons of the past, or shall Christian civilization allow primitive nature to take its course? There is an abundance of unoccupied territory in the world to provide for this need, without the accompaniment of war, famine and the demoralization of mankind. When Russia escapes from the bloody hands now holding her down her government may be willing to sell some of the unlimited regions now lying waste to rehabilitate the rest. Certainly there should be some provision for the increase of population

and the peaceful expansion of those nations who need it.

SAMUEL B. WOODS.

**Dr. Mayo and Vivisection.**

To the Editor of The Star: There has been called to my attention a letter from one of your readers that appeared in The Sunday Star for October 23. The article places Dr. William Mayo of Rochester, Minn., in the position of opposing dog vivisection.

I have no doubt that your correspondent, Mrs. D. U. Fletcher, sin-

cerely believed that the excerpt quoted from Dr. Mayo's lecture before the Boston Surgical Society correctly indicated the doctor's sentiments in this regard, but the fact remains that Dr. Mayo was grossly misrepresented by that old dog of separatism, an excerpt which seems to express one sentiment from a context which, as a whole, voices an entirely different viewpoint.

In justice to Dr. Mayo, I believe you will be inclined to publish the letter which Dr. Mayo wrote in protest to the manner in which his views were distorted. It was published in the Women's Home Companion over

his name for November, and read as follows: "My Dear Mr. Baynes: 'I thank you for your letter of July 12, enclosing a copy of your article, 'The Truth About Vivisection'; and I would say that this article has the complete approval of my brother and myself. We are, of course, strongly in favor of vivisection. In the clinic there are large laboratories in which a number of physicians are constantly at work on investigations which depend on animal experimentation. The trouble with the anti-vivisectionists is that they are not only dishonest, but willfully dishonest. They picked out one sentence from a para-

graph in my address, 'In the Time of Henry Jacob Bigelow,' given before the Boston Surgical Society, in Boston, on June 6, and exploited it for their purposes, ignoring the fact that the impression they produced was quite contradictory to the views expressed. The truth is not in these people."

W. J. WOODRUFF.
